NAACP's
ENVIRONMENTAL & CLIMATE JUSTICE PROGRAM

TO THE PEOPLE:
FUELING THE REVOLUTION FOR ENERGY JUSTICE
Richard Mabion is the president of the Kansas City, Kansas NAACP Branch and the first African-American board member of the Kansas Sierra Club. Mabion’s position is a unique one because the environmental movement has long been operating without much diversity - a fault that keeps many minority communities in the dark.

- Together with the Sierra Club, threatened to sue the Board of Public Utilities over two coal-fired power plants that suffocate Black and Latino neighborhoods with smog in Wyandotte county.
- Hosted an Environmental Literacy Training on April 14, 2017 with 50 participants.
